

**REMARKS**

This amendment after final is to correct a typographical error found in dependent claim 15 as originally filed. The error identified the substitution at amino acid 92 as "N92K" and has been amended to read "N92C." Support for this amendment can be found in the specification and claims as filed, at least in claims 14, 16 and 20. No new matter is added by this amendment.

Because Applicants believe the amendment does not add new matter, entry of the amendment after allowance is respectfully requested. If a telephone conference would expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (650) 846-7595.

Respectfully submitted,

Date: October 18, 2007
